ABOUT US

DG Lighting is a leading provider of high-quality lighting products in Doha, Qatar. Established in 2015, we have become a trusted source for indoor, outdoor, commercial and fancy lights. Our lights are designed and imported from PRC, and some products are even manufactured in our own workshop, ensuring the highest quality standards. We offer a wide range of products to meet the diverse needs of our clients, from modern and sleek designs to more traditional and classic styles. Our knowledgeable sales team is always available to assist customers in finding the perfect lighting solutions for their needs. Our commitment to superior manufacturing and quality practices has earned us a reputation as a reliable and trustworthy provider of lighting products in Qatar.

OUR MISSION & VISION

OUR MISSION

Provide reliable and quality lighting solutions tailored to Qatar's specific needs.

Offer a broad selection of modern and classic designs, imported from PRC and manufactured in our own workshop.

Maintain highest standards of quality and customer service.

Become the leading provider of lighting products in Qatar.

Create an ideal, efficient lighting world.

Innovate and inspire awareness of global energy waste.

Make a difference and create value.

OUR VISION

At DG Lighting, we aspire to be the most trusted provider of quality lighting products in Qatar.

VALUE ENGINEERING

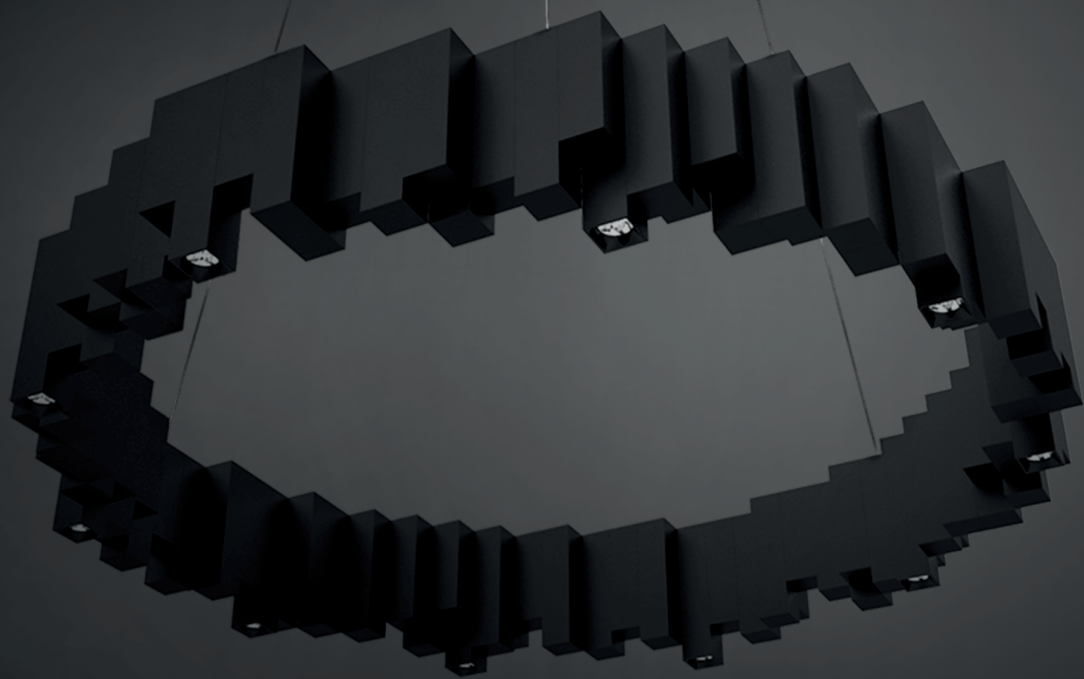

Conventional & Decorative Street Lighting Poles, High Mast lights, Stadium Lighting, Landscape Lighting, Floodlights, and Tunnel Lights.

INSTALLATION

Our team of technicians will assist in proper installation and supervision of your project.

INDOOR LIGHTING & DESIGN

Excellent lighting is essential to ensuring that a house's design and architectural features are manifested as a home. To achieve this, DG Lighting collaborates with the project's lead architect, interior designer, and MEP contractors from the very beginning to create the ideal impression with both natural and artificial illumination.

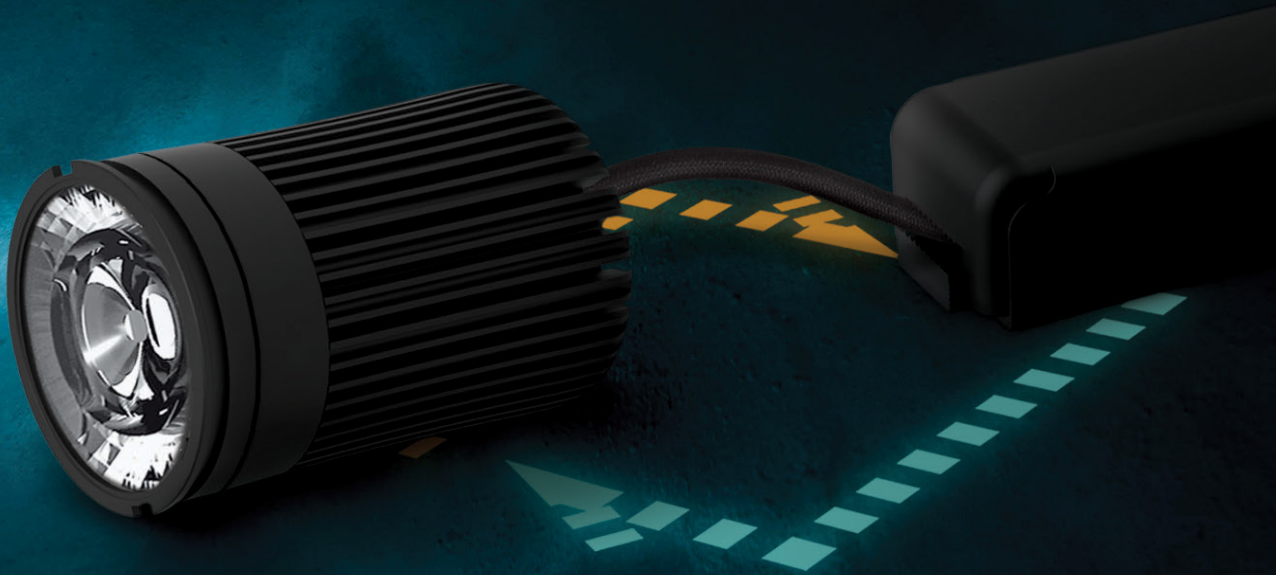

COMMERCIAL INTERIOR LIGHTING

DG Lighting is a company that provides commercial interior lighting solutions. Our products include LED panel lights, linear lights, and recessed lights, which can be used for a variety of applications such as office spaces, retail stores, and hotels. We also offer customisable options to meet the specific needs of clients.

Rochlux is an intelligent combination of superior LED engine, electronics and heat management firmware. In the event of abnormally high ambient temperature conditions, ATePS actively regulates the LED engine temperature through algorithmic fine-tuning without any user intervention, maintaining maximum possible light output as well as LED engine's lifespan.

A modern office interior featuring a series of white, geometric, angular light fixtures suspended from the ceiling. The space includes dark brown leather armchairs, a white armchair, a round dark table, and a long white table. Large glass windows and doors are visible in the background, and a floor lamp with a white shade is positioned near the seating area.

BESPOKE DESIGN & Installation

Effective architectural lighting design is crucial to achieve the desired ambiance and aesthetic in any project. At DG Lighting, we are dedicated to creating custom solutions that add warmth, drama and depth, and complement the overall design of the space. Our expertly crafted designs and installations enhance the look and feel of any project.

ARCHITECTURAL Lighting

At DG Lighting, we specialize in architectural lighting design that seamlessly integrates lighting fixtures into architectural features or joinery, resulting in a sophisticated and stylish effect. Our approach involves the use of discreet and concealable fixtures that give the impression of light emanating naturally from surfaces or objects, creating an invisible light source.

OUTDOOR LIGHTING & DESIGN

Selecting the appropriate outdoor lighting can greatly contribute to creating a warm and inviting atmosphere in your garden, regardless of its size. The appropriate night lighting for outdoor spaces requires strategic utilization of lighting and shadow to create contrast and intensity, which will enhance the overall elegance of the area.

OUTDOOR FACADE LIGHTING

DG Lights is a company that specialises in outdoor facade lighting. They offer a wide range of lighting solutions for commercial and residential properties, including LED lights and energy-efficient options. Their lighting systems are designed to enhance the aesthetic appeal of buildings and add a layer of security. The facade lighting not only illuminates the building at night, but also creates a visually striking effect that can be enjoyed both by the occupants and passers-by.

STREET LIGHT POLES

DG Lighting provides a wide range of street lighting poles that are designed to meet the diverse needs of cities and towns. These poles are available in various sizes, styles and materials such as steel, aluminum, and fiberglass, also with various mounting options for various types of area lighting. These poles are sturdy, durable and can withstand extreme weather conditions and require low maintenance. They also offer energy-efficient options such as LED lights.

SWITCHES & SOCKETS

Switches and sockets covers a huge scope of needs. Choose between the Deco and Deco Plus ranges for squared or rounded switches and sockets in modern black nickel, versatile stainless steel and classic brasses, plus more besides. The Define range comes in 5 finishes with a slim flatplate design, while the Definity offers both sleek screwless looks and near limitless customisability due to its modular design. Also here can be found the latest Smart Plus products for the smart home and Mode Part M for acces.

AUTOMATION SYSTEM

Living Now is the new Living generation. A timeless icon which combines the linearity of a unique design with the simplicity of Smart technology, this without changing usual wiring procedures because Living Now is always installed in the All traditional way, guaranteeing a perfect installation.

UNDERWATER LIGHTING

Lighting elements create beautiful and pleasant environments when luminaires are placed inside water entities like pools, fountains, ponds and even tubs. Surface mounted or recessed linear fixtures form homogeneous lines and increase the aesthetic appeal of the pool structure.

Own Brand

LED recessed Mounted Downlight

LED, as today's most efficient light source, delivers a high quality light with an increased lifetime, compared to conventional compact fluorescent light sources. LED Downlights provide an optimal light distribution and extended life time all at an affordable price. LED downlights are fully compatible with existing conventional downlight infrastructure, and are the perfect choice for both new and replacement markets.

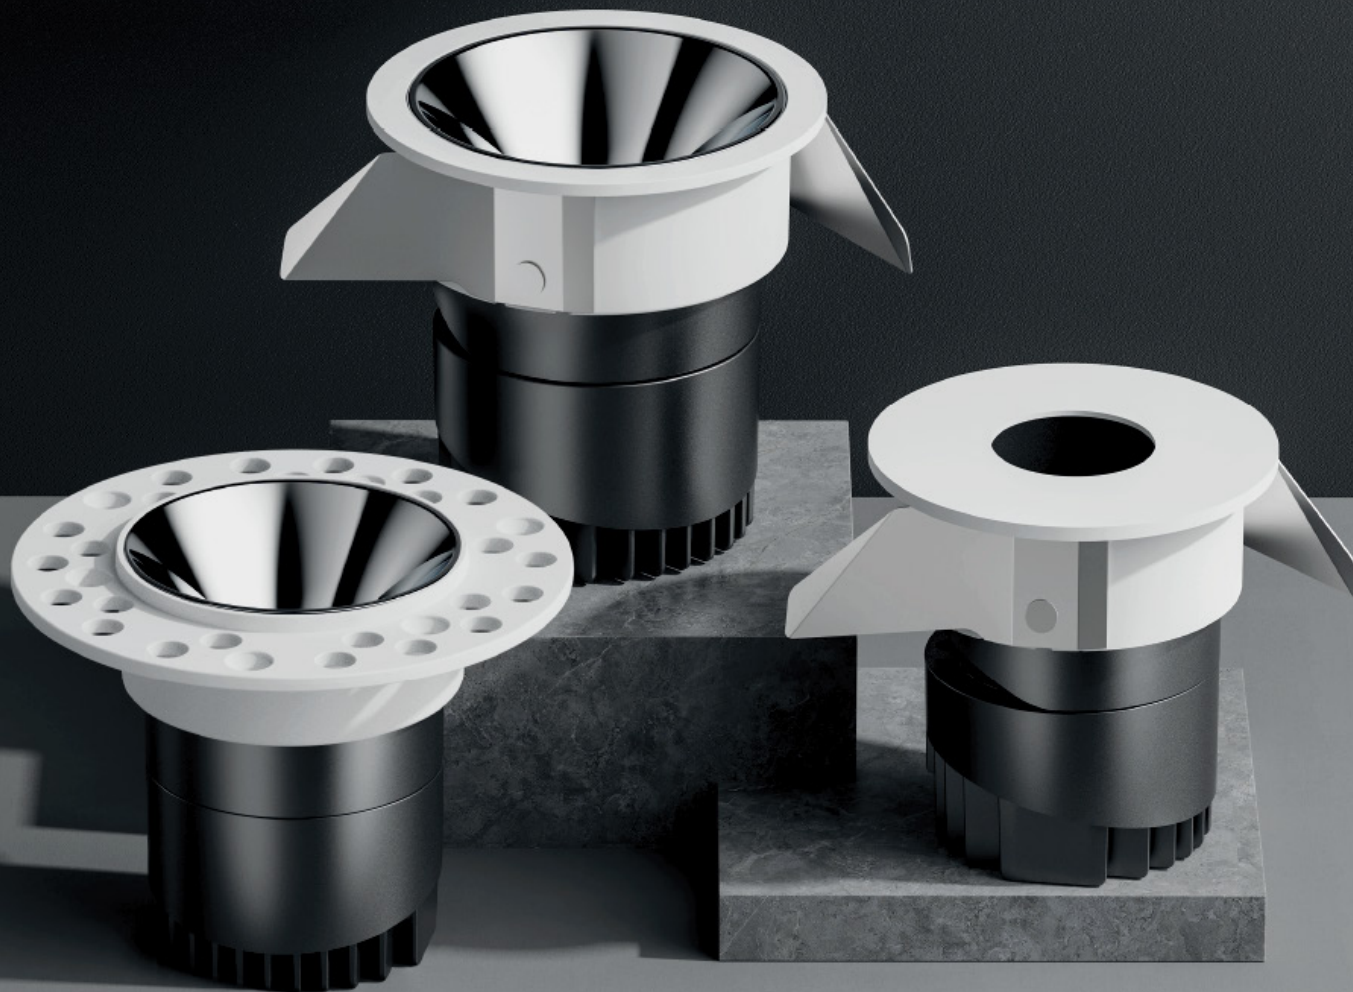

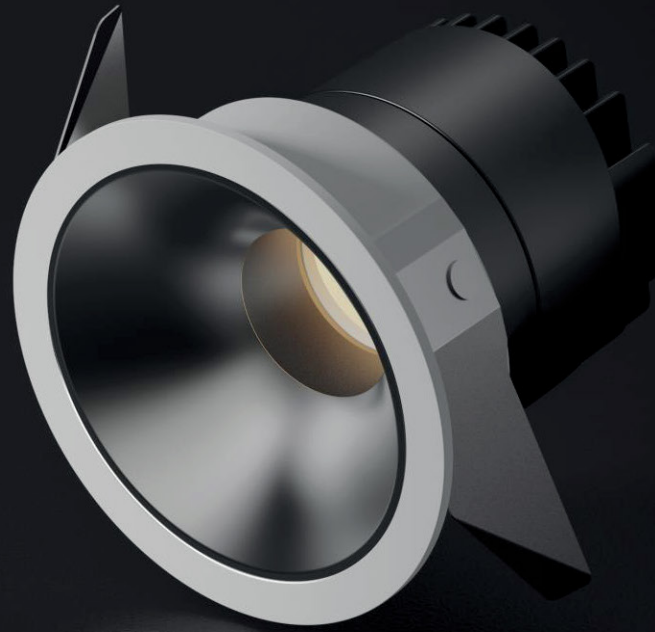

48VDC Magnetic track system

ROCHLUX^{UK}

Deep Anti-Glare

In general, the horizontal view of human activities in space is 30 degrees, so the anti glare shielding of spotlights should be more than 30 degrees to effectively prevent glare
